WorkSheet#17 | Multiplication: Multiply by 10 and 100

Multiply the following.

$$\begin{array}{r} 1) \quad 43 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 2) \quad 46 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 3) \quad 32 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 4) \quad 30 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 5) \quad 43 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 6) \quad 27 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 7) \quad 42 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 8) \quad 43 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 9) \quad 27 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 10) \quad 37 \\ \quad 10 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 11) \quad 20 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 12) \quad 33 \\ \quad 10 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 13) \quad 41 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 14) \quad 22 \\ \quad 10 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 15) \quad 39 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 16) \quad 46 \\ \quad 10 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 17) \quad 27 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 18) \quad 24 \\ \quad 10 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 19) \quad 34 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 20) \quad 36 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 21) \quad 47 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 22) \quad 23 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 23) \quad 42 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 24) \quad 48 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 25) \quad 21 \\ \quad 100 \\ \hline \\ \hline \end{array}$$

Hint: The place values for a number multiplied by 100 increased 2 places Eg. 57×100 the 7 Ones becomes 7 hundred and the 5 tens becomes 5 thousand, $5000 + 700 = 5700$
