WorkSheet#4| Subtraction: Compensation

Subtract the following using Compensation

$$\begin{array}{r} 1) \quad 19 \\ \quad 8 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 2) \quad 16 \\ \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 3) \quad 996 \\ \quad 37 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 4) \quad 16 \\ \quad 8 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 5) \quad 17 \\ \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 6) \quad 996 \\ \quad 28 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 7) \quad 18 \\ \quad 9 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 8) \quad 998 \\ \quad 24 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 9) \quad 998 \\ \quad 35 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 10) \quad 18 \\ \quad 8 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 11) \quad 18 \\ \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 12) \quad 998 \\ \quad 22 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 13) \quad 999 \\ \quad 43 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 14) \quad 18 \\ \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 15) \quad 999 \\ \quad 40 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 16) \quad 18 \\ \quad 8 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 17) \quad 17 \\ \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 18) \quad 999 \\ \quad 48 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 19) \quad 19 \\ \quad 8 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 20) \quad 19 \\ \quad 8 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 21) \quad 998 \\ \quad 25 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 22) \quad 17 \\ \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 23) \quad 18 \\ \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 24) \quad 999 \\ \quad 17 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 25) \quad 19 \\ \quad 7 \\ \hline \\ \hline \end{array}$$

Hint: For 17-9, think, "17-10 is 7, but I subtracted 1 too many, so the answer is 8."
