WorkSheet#4 | Subtraction: Round to nearest 10

Subtract the following by rounding to nearest 10.

$1) \begin{array}{r} 11 \\ - 9 \\ \hline \end{array}$

$2) \begin{array}{r} 9 \\ - 1 \\ \hline \end{array}$

$3) \begin{array}{r} 11 \\ - 9 \\ \hline \end{array}$

$4) \begin{array}{r} 9 \\ - 4 \\ \hline \end{array}$

$5) \begin{array}{r} 8 \\ - 2 \\ \hline \end{array}$

$6) \begin{array}{r} 11 \\ - 7 \\ \hline \end{array}$

$7) \begin{array}{r} 12 \\ - 10 \\ \hline \end{array}$

$8) \begin{array}{r} 9 \\ - 4 \\ \hline \end{array}$

$9) \begin{array}{r} 8 \\ - 7 \\ \hline \end{array}$

$10) \begin{array}{r} 11 \\ - 8 \\ \hline \end{array}$

$11) \begin{array}{r} 9 \\ - 5 \\ \hline \end{array}$

$12) \begin{array}{r} 12 \\ - 1 \\ \hline \end{array}$

$13) \begin{array}{r} 11 \\ - 3 \\ \hline \end{array}$

$14) \begin{array}{r} 9 \\ - 6 \\ \hline \end{array}$

$15) \begin{array}{r} 11 \\ - 2 \\ \hline \end{array}$

$16) \begin{array}{r} 8 \\ - 6 \\ \hline \end{array}$

$17) \begin{array}{r} 11 \\ - 5 \\ \hline \end{array}$

$18) \begin{array}{r} 8 \\ - 2 \\ \hline \end{array}$

$19) \begin{array}{r} 12 \\ - 8 \\ \hline \end{array}$

$20) \begin{array}{r} 11 \\ - 6 \\ \hline \end{array}$

$21) \begin{array}{r} 9 \\ - 3 \\ \hline \end{array}$

$22) \begin{array}{r} 8 \\ - 5 \\ \hline \end{array}$

$23) \begin{array}{r} 12 \\ - 7 \\ \hline \end{array}$

$24) \begin{array}{r} 12 \\ - 9 \\ \hline \end{array}$

$25) \begin{array}{r} 11 \\ - 2 \\ \hline \end{array}$

Hint: Subtract 1 from 11 to round, $10+8$ is 18 and now add 1. Eg. For $11-8$ is $(11-1)-8=10-8=2+1=3$
