

## Mental Math Level 5

### WorkSheet#7 | Subtraction: Balancing for a Constant Difference

Subtract the following.

1)    29              2)    39              3)    39              4)    19              5)    19

      18              27              25              7              7

      \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_

6)    47              7)    49              8)    39              9)    18              10)    37

      34              36              26              7              26

      \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_

11)    17              12)    37              13)    28              14)    29              15)    37

      4              23              15              16              23

      \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_

16)    17              17)    37              18)    17              19)    48              20)    28

      6              25              4              36              14

      \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_

21)    28              22)    28              23)    19              24)    48              25)    38

      15              15              8              37              26

      \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_              \_\_\_\_\_

Hint: Involves changing both numbers in a subtraction sentence by the same amount to make it easier to complete. The difference between the two numbers remain the same. For 27-16, add 3 to each number and think, "30-19=11"
